CC celebrated World Interfaith Harmony Week on Sunday, February 1st by organizing a moment of meditation with the renewed Living and Care Centre "Jonker Frans" for elder people in The Hague. Together, we thought of World Interfaith Harmony Week in the Meditation Room. The president of CC IBS, Bart ten Broek, led the meeting.

Nextdoors is a Silence Centre. Occupants of Jonker Frans and the members of the CC want to bring a Lightsculpture there of the German artist Leo Lebedig. The sculpture combines the symbols of all religions and the "Happy Man" without religion. The sculpture is called "Human Soul". We invite people from The Hague and also participants from URI Cooperation Circles and other Interfaith organizations in The Netherlands to the presentation.
